

THE CARE PROGRAM

WITH SUPPORT FROM INDIANA FSSA, THE INDIANA CHAPTER OF THE AMERICAN ACADEMY OF PEDIATRICS HAS DEVELOPED A PROGRAM TO HELP ADDRESS THE NATIONAL STATE OF EMERGENCY IN CHILDREN'S MENTAL HEALTH

There are many options when it comes to seeking mental health support and choosing the right provider can often feel overwhelming.

The CARE Program and CARE Line (888-495-7271) were created to help Hoosier families connect to mental health providers who specialize in pediatric care.

Our family navigators utilize a comprehensive and compassionate approach to match families with mental health providers in their area.

Mental health providers can register with the link below. It will add your information directly into our mental health provider database.

<https://www.surveymonkey.com/r/CAREproviders>

The database will grow with every child served and help to guide both families and medical professionals in referring Indiana children to mental health services.
